Work Experiences

Oct 2024 - Present Junior Associate Software Developer at Azeus Systems Philippines Limited
Ortigas, Metro Manila

Sep 2023 - Jun 2024 Student Assistant at Centennial Residence Hall
UP Diliman, Quezon City, Metro Manila
Tasked to bedcheck a total of forty residents in the dormitory
Handled events including weekly get-together events and acquaintance parties

Jul 2023 - Aug 2023 Software Developer Intern at Azeus Systems Philippines Limited
Ortigas, Metro Manila
Developed a Task Approval and Automation System using Vue.js for the frontend and Spring Boot for the backend
Acquired proficiency in essential software development techniques including SAML SSO integration and remote server deployment
Technologies: Spring Boot, Vue.JS

May 2022 - Jun 2023 Bootcamp Trainer at StackTrek
Bonifacio Global Center, Metro Manila
Equipped bootcampers with full-stack web development and cybersecurity knowledge
Designed interactive Python learning materials, incorporating well-structured modules and challenging exercises
Technologies: Python, Node.JS, ExpressJS, PostgreSQL, ReactJS

Jun 2017 - Jul 2017 Intern at Computational Science Research Center
UP Diliman, Quezon City, Metro Manila
Applied computer software troubleshooting skills, including reformatting, network resetting and implementing hack prevention measures
Applied computer hardware troubleshooting skills to address issues with motherboards, RAM and ethernet adapters and assembled a fully operational computer from the ground up

Education

2020 - 2024 University of the Philippines Diliman
Quezon City, Metro Manila
Bachelor of Science in Computer Science
Consistent University Scholar (GWA above 1.45)
Summa Cum Laude (GWA of 1.1976)
Coursework: Data Structures and Algorithms, Operating Systems, Computer Security, Software Engineering, Advanced Networking, Data Analytics

2014 - 2020	Philippines Science High School - Bicol Region Campus <i>Goa, Camarines Sur</i> STEM Track - Physics Major Competence in Mathematics Competence in Computer Science
2008 - 2014	Labo Elementary School <i>Labo, Camarines Norte</i> Salutatorian Best in Mathematics Best in Science

Skills

■ Programming Languages

*C, C++
Python
Java
Git
Bash*

■ Web Development

*HTML, Javascript/Typescript, CSS, SQL
ReactJS, Vue.JS, ExpressJS
Spring Boot, FastAPI
MapBox API, G6*

■ Personal

*Communication - Fluent in English and Filipino
Proficient in Data Structures and Algorithms
Computer Literate
Fast Learner
Hosting*

Portfolio

Sep 2024 - Sep 2024	EAMC GastroFilter https://github.com/H3XoRuSH/eamc-gastrofilter Developed a patient tracking system for East Avenue Medical Center to support their research initiatives Implemented a personalized patient filtering system to streamline data analysis Technologies: Vue.JS
Jul 2024 - Jul 2024	Gab's Grad Dedications https://github.com/H3XoRuSH/gab-grad-dedications Developed a dynamic web application utilizing Vue.JS to display personalized graduation messages based on user-inputted codes Implemented Python scripts for crafting JSON payloads for the application and automating message creation Technologies: Vue.JS, Python

- Feb 2024 - Jun 2024** Project LERA: Luzon Electricity Reliability Analysis
<https://github.com/smtnhacker/cs132-ph-electric-shortages>
 Collected electricity reliability data in Luzon, focusing on power outages, by scraping electric cooperatives' Facebook pages and websites
 Leveraged statistical analysis (Chi-Square Tests) to identify factors influencing power outages and employed random forest regression to develop a predictive model for future outages
Technologies: Python, HTML, CSS, Javascript
- May 2023 - Jun 2024** WebSnapse Dynamic: WebSnapse with Support for SN P Systems with Neuron Division
github.com/websnapse/websnapse-dynamic
 Developed WebSnapse Dynamic, a Spiking Neural P systems (SN P systems) simulator featuring neuron division which builds upon the prior iteration, WebSnapse Reloaded
 Proposed new definitions for matrix representations of SN P systems incorporating neuron division
Technologies: Python, Vue.JS, G6
- May 2023 - Jun 2023** Filipino Fake News Detector
github.com/H3XoRuSH/Filipino-Fake-News-Detector
 Developed a machine learning model to detect fake text in the current Philippine context, employing a Multinomial Naive Bayes Classifier for accurate classification
 Developed a Chrome Extension to utilize the model
Technologies: Python, Javascript
- May 2023 - Jun 2023** IoMeter
<https://github.com/Aruken/IoMeter>
 Developed an IoT smart energy meter to monitor electricity consumption in households and buildings
 Utilized ESP32 for data collection and communication with a cloud server for real-time updates
Technologies: C/C++, ReactJS, ExpressJS, PostgreSQL
- Jan 2023 - May 2023** Camarines Norte Interactive Map
github.com/H3XoRuSH/cam-no-map
 Simulated the map of Camarines Norte and marks spots of accommodation, tourism, historical and business as well as recommend tours to users
Technologies: Javascript, ReactJS, Mapbox API
- Mar 2021 - Apr 2021** OJ Hacker
github.com/smtnhacker/OJHacker
 Demonstrated technical expertise in bot development and problem generation by contributing to the creation of a Discord bot that streamlines test case creation for programming classes
Technologies: Python

Extracurricular Activities

- 2021 - 2024** UP Algolympics
Consistent Finalist for Four Years
 Demonstrated my team's competitive programming prowess by tackling complex problems in a week-long online qualifier and a five-hour final round against universities from across the Philippines

- 2021** DSC Cebu Programming Challenge
1st out of 20
 Put my coding prowess with my two teammates to the test in a one-day national showdown
- 2020** Hackerrank
Certificates in Problem Solving and Python
 Obtained 1 Gold, 5 Silver and 5 Bronze Medals through online programming contests
- 2016 - 2020** National Olympiad in Informatics (NOI.PH)
Consistent Finalist (Top 20)
 Achieved high places in NOI.PH, a national high school competitive programming contest
- 2008 - 2020** Math Competitions
Contestant in MTAP, IKMC, ITMO and PMO
 Received multiple medals from district-regional MTAP contests
 Received multiple medals from national-international contests including IKMC and ITMO
